Public Workshop

October 13, 2021, 7pm

Afton Community Centre 1552 Route 19

Session livestream:

https://www.facebook.com/planwestriver

The public is invited to a public engagement session for the Rural Municipality of West River's first official plan and land use bylaw.

The official plan sets out policies for land use and describes how the community will develop over time, including economic, physical, social, and environmental goals. The land use bylaw will identify which land uses are permitted, where they can go, and the standards those uses have to meet.

We are currently in the information gathering stage and are looking for the public's ideas on the ways different parts of the community should or could grow or be protected.

To pre-register (required):

Contact the municipality by **noon on Friday, October 8, 2021.**
