

Public Session #3

March 2, 2022, 7pm

Afton Community Centre
1552 Route 19

Session livestream:

<https://www.facebook.com/planwestriver>

The public is invited to the third public engagement session for the Rural Municipality of West River's first official plan and land use bylaw.

The official plan sets out policies for land use and describes how the community will develop over time, including economic, physical, social, and environmental goals. The land use bylaw will identify which land uses are permitted, where they can go, and the standards those uses have to meet.

At this session, the consulting team will be presenting draft proposed policies and subdivision and development standards, including proposed zoning

To pre-register (required):

Contact the municipality by **noon on Monday, February 28, 2022.**
